Election Manifesto Punjab State Assembly Elections – 2022

Sadda Khirda Punjab'(Our Blossoming Punjab) is the nomenclature of our dreams for Punjab. A Punjab, which stood for the nation, A Punjab where mothers saw their sons broad-chested and torch bearers of nation's pride, where every Indian looked upon Punjab and Punjabis as their savior and bread provider, we dream of that Punjab which graced the throne of being No 1 state till 70s. We dream to wrest the same glory for our beloved state.

Our Manifesto is based on these dreams which we are determined to realize.

Election Manifesto Punjab State Assembly Elections – 2022

OUR PUNJAB: NOW A SORRY STATE OF AFFAIRS

From its glorious pinnacle, Punjab has witnessed a gradual but steady decline on social, economic and political fronts, but most notably in the context of its image, pride and sense of self, as a state.

THE GRADUAL FALL

The statistics below explains the harsh truth:

Punjab's GDP per capita rank

1981: 1st

2001: 5th

2005: 10th

2010: 14th

2015: 16th

2019: 17th

ECONOMY OF FREEBIES

Over the last few decades, the State's Economic model is largely based on freebies and mindless socialism which has, over the years, ruined the state. Nay, the real intent of providing freebies have not been for the betterment of the citizens but for grabbing the brute power. The politicians have been taking the gullible, innocent and God fearing citizens of the state for a ride for years, be it on economic, social or religious front and ruining the name of the state of Punjab.

ਵਾਹਿਗੁਰੂ ਜੀ ਕਾ ਖਾਲਸਾ |

ਵਾਹਿਗੁਰੂ ਜੀ ਕੀ ਫਤਹਿ ||

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

We intend to percolate our message of ‘SadaKhiddaPanjab’, where the government is not the ‘Ruler’ but a humble servant. Hopefully, a better sense will prevail and the gullible people of Punjab will see though the nefarious designs day is not far when the Punjabi will understand and realize how he has been fudged by the politicians and the system. The model of the Administration, at present, is to serve the purpose of a few ‘blessed one’, right at the top of political echelons.

PUNJAB – A CANCER BELT NOW:

From being a state which led India in 1970’s to the pillar of Indian Food basket, is now known as the “Cancer Belt in India”. The loved ones are getting victim to this fatal disease and each passing year, we witness this deadly disease spreading its tentacles. Though this venomous disease is spreading all over, but we would aim to eradicate this lethal ailment. We would wrest the initiative, without any assistance from the existing government machineries and realize our dream of “Sadda Khirda Punjab”!(Our blossoming Punjab).

The situation is in grim in Malwa Belt.Muktsar has the highest number of cases (136 per lakh population) followed by Mansa (134.6) and Bathinda (125.8).

Pesticide Row:

Even though experts have claimed that pesticides have nothing to do with high prevalence of cancer in the Malwa region, Health Ministry’s opinion is that pesticides could be responsible for the high prevalence of cancer in the region.

Election Manifesto Punjab State Assembly Elections – 2022

National Lok Kalyan Party recognizes that no nation or state could chart out its domestic policies unless it has a clear understanding about itself, its history, its roots, its strengths and failings. In a highly mobile and globalized world, it is imperative for a nation to know its roots that provide sustenance to its people. Similarly, Punjab has to wake up from its slumber and realize where its future generation is heading.

The Path Lost

After achieving independence, the leaders at the helm of affairs lost the spirit and the vision, which the freedom movement had evoked. They discarded the vision and adopted the institutional framework of administration created by the British which was quite alien to India. It is unfortunate that the leaders of Punjab also could not comprehend Punjab's sinner vitality, which was the main force responsible for Punjab's survival despite several attacks and prolonged foreign interference thus, failed to rekindle the spirit of Punjab.

Even after early seven decades of our independence, our State could not regain its past glory and has not been able to discover its innate vitality, the sense of time and the will to act. As a result, in spite of being the oldest civilization and a young republic, we are engulfed by a multi-dimensional crisis. A crisis has encompassed all walks of life. The rising disparities, social and communal rivalry and terrorism leading to a fractured society is worsening the situation rapidly. The tragedy is further heightened by their failure to diagnose the malady and find the remedy.

Instead of creating a socio-economic and political paradigm of governance drawn from the civilization consciousness of Punjab, the leaders tried to blindly follow whatever was being practiced in this or any other western country.

Election Manifesto Punjab State Assembly Elections – 2022

PARADOXICAL DOWNFALL

While our country has made strident progress in every field, our state Punjab has been plunging down over the years. This paradoxical downfall is not difficult to explain as it can be attributed to the wrong policies of the successive state governments. Thus, we have wasted more than half of a century. Many other countries, even with smaller size and less resources, have surpassed us in development parameters. India started being reckoned economic super power but our State Punjab has lagged behind and sliding down further.

National Lok Kalyan Party : A NEW SUNRISE :

National Lok Kalyan Party Party demands urgent solutions. A strong economy consisting of agriculture, energy, environment including natural resources, education and health, employment, external and internal threats to security, empowerment, good-governance, and erosion of moral and societal values. If Punjab has to regain its past glory, it has not only to survive but also to play its destined role in the development of the nation. If it has to make its voice heard, then we must take up the challenges with urgency and determination and provide proper solutions for them. It is a pity that we have a demoralized leadership presiding over the state apparatus, which is incompetent to handle the present problems.

Election Manifesto Punjab State Assembly Elections – 2022

The situation in the State is deteriorating rapidly. Delay in resolving the crisis would be dangerous. What is needed is to take lessons from history recognize the vitality and resilience of the Punjab State, utilize its strength, which drove it to glorious heights and analyses its weaknesses ,which led to this abysmal fall .

Let's keep the windows open, have a clear understanding of the global scenario and how without destroying our uniqueness we can assimilate the best of the technological advancements. We can achieve this goal provided the leaders seriously set to this task. What we need is a political party committed to deliver and a leadership with strong determination and political will .As Vivekanand a had said, "All power is within you. You can do anything. Believe in that." Yes, the power lies in the people of Punjab, in the inner sanctum sanctorum of Mother India. NATIONAL LOK KALYAN PARTY will bring a n e w sunrise , a hope that will be fulfilled. and realize the dream of three crore Punjabis.

National Lok Kalyan Party: a name for our dream: “Sadda Khirda Punjab”

Today, India is blessed with the rare capacity and opportunities and of we are able to consolidate and harness **Democracy, Demography and Demand**, we will be able to reach the heights which Punjab deserves. “Sadda Khirda Punjab” – our endeavor to bring the lost glory and pride will overcome – will bring the state out of its present sorry state of affairs. It does not need a genius to find out the reasons of Punjab being sunk in such a deep abyss .The intentions of the ‘Rulers’ of the state, have carried on with the legacy of imperialism, where every act and step was ‘government-centric.’

.And that is where we would show the first difference.

Election Manifesto Punjab State Assembly Elections – 2022

Sardar Inder Preet Singh: The doyen of ‘Sadda Khirda Punjab’

With this determination of the Party under the charismatic leadership of **Sardar Inder Preet Singh**, a social worker, reformist and a crusader of justice for the poor and downtrodden, **Sardar Inder Preet Singh** has always stood for the development of the Nation and its people. A professor by profession, **Sardar Inder Preet Singh** has taken over the challenge to bring a change in our political landscape. Disheartened and disillusioned like most of us by the political scenario and the leaders, he has taken on the mantle to be the change himself.

As we enter the elections to the Punjab State Assembly 2022, National Lok Kaylan Party would work whole-heartedly to give a stable, strong, visionary and progressive Government to Punjab. It is an opportunity to change our fate and of our State.

The Decay & the Resurgence:

Decades of rule by various political parties over Punjab can be summed in one line – the '**Decades of Decay**'. Punjab, in these decades had a free fall on all fronts- be it governance, economy, agriculture, industrial development and above all contaminated ground water, drug abuse and border safety, etc.. At the same time, corruption, scams and crime against women have reached to unacceptable levels. The growth rate declined drastically rendering millions of men and women jobless.

Election Manifesto Punjab State Assembly Elections – 2022

National Lok Kalyan Party is committed to break the vicious cycle of high inflation .Our immediate task will be to rein in inflation by several steps ,such as:

1. Put in place strict measures and special Courts to stop hoarding and black marketing.
2. Setting up a Price Stabilization Fund.
3. Streamline FCI operations into procurement, storage and distribution for greater efficiency, instead of allowing the stored food grains to rot.
4. Leverage on technology to disseminate Real time data, especially to farmers - on production, prices, imports, stocks and overall availability.
5. Promote and support area specific crops and vegetables linked to food habits of the people.
6. Set up Micro Food Plants at various locations to launch value addition production based on area specific crops, fruits & vegetables.

Social Justice : A priority Punjab also has highest proportion of deprived Schedule Caste and OBC population (37% approx.), which is about twice the national average (18.46%). Punjab also has a large number of migratory labour populations who reside in the State on permanent basis or on seasonal basis and need all essential basic facilities.

In addition, Punjab has highest percentage of landless population (43.34%) in the Northern States and 5th highest in the country. But notwithstanding all these unfavourable factors, Punjab occupies an extremely important place in the economy of the country.

Election Manifesto Punjab State Assembly Elections – 2022 **Employment and Entrepreneurship**

The State of Punjab has gone through decades of Jobless Growth by State Governments. Under the broader economic revival, National Lok Kaylan Party will accord high priority to job creation and opportunities for entrepreneurship. We will:

1. Strategically develop high impact domains like Labour-intensive manufacturing (viz. textile, footwear, electronics assembly, etc..) and Tourism.
2. Strengthen the traditional employment bases of agriculture and allied industries, and retail - through modernization as well as stronger credit and market linkages.

Untapped Talent of Punjab :-

1. Harness the opportunities provided by the up gradation of infrastructure and housing, for its job generating potential.
2. Encourage and empower our youth for self-employment - incubating entrepreneurship as well as facilitating credit.
3. Address the employability issue by initiating a multi-skills development programme in mission mode. Focus will be on job creation and entrepreneurship, in both rural and urban areas. Simple college degrees are not sufficient to get employment.

Industrial Training Institutes (ITI) : will launch special courses to train the youth in skills required for infrastructure development in the State such as Carpentry, Masonry, Fabrication, Housing & Industrial Electrical Wiring, Plumbing, Landscaping, Horticulture, etc.

National Lok Kaylan Party connects our youth in Punjab with job opportunities in a transparent and effective manner through the use of technology; as well as providing counselling and training.

Election Manifesto Punjab State Assembly Elections – 2022

National Lok Kaylan Party: A synonym to clean Governance Corruption is a manifestation of poor Governance. Corruption has engulfed the entire state government machinery. Not only corruption breeds inefficiency and a decay in moral and social values, it brings a slow devastation in all walks of life. We, National Lok Kaylan Party have determined to establish a system, which eliminates even the scope for corruption. The blue-print for eradication of corruption can be achieved through Public awareness by launching mass campaign against corruption. National Lok Kaylan Party would engage technology enabled e-governance - minimizing the discretion in the citizen-government interface. National Lok Kaylan Party would launch a system-based, policy-driven governance - making it transparent.

National Lok Kaylan Party would ensure simplification of the processes and procedures at all levels - bestowing faith in the citizens, institutions and establishments. Bottlenecks: Whatever we do and provide for, the whole chain has to be kept in mind. With this in mind, we will

1. remove bottlenecks and missing links in all sectors, activities and services.
2. focus on proper planning and execution for right outcomes.
3. strive for scale and speed with futuristic vision.
4. Build institutions for today and tomorrow.

Credibility Crisis The National Lok Kaylan Party will work for restoring the trust and credibility of the Government. We will also ensure that the chain of responsibility and accountability is built in the system.

ਵਾਹਿਗੁਰੂ ਜੀ ਕੀ ਫਤਹਿ ||

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

Centre-State Relations: National Lok Kaylan Party would ensure that the genuine grievances of the state are addressed in a comprehensive manner by the Centre.

1. We will place Centre-State relations on an even keel through the process of consultation and strive for harmonious Centre-State relations.
2. Our Government will be an enabler and facilitator in the rapid progress of the State.
3. Ensure fiscal autonomy of States while urging financial discipline.
4. We will ensure cooperation with the Centre on security-related issues, inter-state disputes and for removing inter-regional economic disparities and promoting tourism.
5. From Representative to Participatory Democracy: We believe this power should be genuinely decentralized. National Lok Kaylan Party will stand for greater decentralization through devolving of powers to the Panchayats and local bodies. A vast reservoir of People's Power has not yet been tested in the real sense. We have not been able to involve the people in Governance as functionaries and facilitators.

Power with People

1. We recognize the special needs and unique problems of each District. In consultation with the local Panchayats, district -specific developmental priorities/ models will be evolved so that the aspirations of the people are met.
2. All steps will be taken to provide good governance, better infrastructure, educational opportunities, healthcare and more job opportunities, leading to a better quality of life in the State.

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

People's Participation: Our developmental process will be a people's movement - of Jan Jagran and Nav Nirman Movement. We will make them the active drivers of development rather than mere passive recipients and onlookers. People's Engagement: Through Pro-active, Pro-people Good Governance, we will ensure the Government itself directly reaches out to the people, especially the weak and marginalized sections of society.

1. We will further evolve the Public Private Partnership (PPP) model into a People-Public-Private Partnership (PPPP) model.
2. All steps will be taken to provide good governance, better infrastructure, educational opportunities, healthcare and more job opportunities, leading to a better quality of life in the State.
3. **National Lok Kaylan Party** is committed to strengthen self-Governance at the local level and we will empower Panchayati Raj Institutions . Good performers amongst the Panchayats will be rewarded with additional developmental grants.
3. Strengthen the institution of the Gram Sabha, respecting their inputs and initiatives for development process.
4. We will actively involve people in policy formulation and evaluation through various platforms.
5. We will encourage Openness in the Government, involving all stake holders in the decision-making processes.

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

Film City Development

National Lok Kalyan Party will develop one of the best film cities in the world

This will provide employment to approx. **5000** people directly & indirectly & generating employment across highly skilled, semi- skilled as well as unskilled workforce in the state viz. Technicians, Cameramen, Editors, Graphic Artists, Writers, Artists, translators, Producers, Show runners, Directors, loaders... the works! In turn, this will boost Tourism, affiliate industries (& more indirect employment) and economy in the state, creating significant prestige for the Nation!

1. To develop state of the art Studios with provisions of all production facilities such as preproduction, production and post production.
2. To develop low cost budget exhibition for making the experience to become affordable for masses.
3. To promote Patiala, Punjab as a favoured destination for conducting shootings for movies, serials, web-series in Indian and international production houses and in turn promote the tourism and culture of Patiala, Punjab throughout entertainment fraternity.
4. . To develop short movies, campaigns, documentaries, plan and promote campaigns to promote tourism as a preferred destination for inviting film & entertainment fraternity across India and internationally.
5. To provide a comprehensive infrastructure and delivery module for promoting film tourism and education
6. To develop all category hotels and conventional centres
7. To setup Punjab training centres to promote art, culture, music and skills locally with best professionals from across the globe

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

8. To develop outdoor sets and villages to showcase the rich beautiful landscape and natural resources of Patiala, Punjab.
9. Development of International Convention Centre to promote Patiala, Punjab as one of the leading destination for hosting exhibitions, events, conferences
10. To develop talent pool by establishing theatre at grassroots so that rather than migrating to other countries the aspiring writers, directors, actors, actress and other technicians can learn and can also be absorbed without leaving there state.
11. To develop tourist destinations to world class standard in it including maintaining and operating for a period of 99 years.
12. To develop amusement parks, amphitheatres, food courts, entertainment and sports destination hubs, retail and shopping facilities

RURAL DEVELOPMENT PROGRAMME

A. SAVE ANNADATA, SAVE VILLAGES , SAVE BHARATVARSH

National Lok Kalyan Party as priority will executives implement to achieve following objective

Proper sanitation and drainage facilities

An ideal village should have good system of sanitation and drainage so that dirty water and waste can be easily drained out. It would help the village keep clean and free from many diseases caused by filthy water. It would also save the villagers from water-logging during the rainy season.

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

Pasture land for cattle

Almost every villager living in a village keeps cattle. There should be enough paster land for grazing of their cattle. Generally, it should be within the village, at a distance from the houses or just outside the village .

Food and fodder

The villagers grow food and vegetables not only for themselves but also for the urban people. They also grow fodder for their cattle. They also produce dairy, poultry and other products for their own consumption as well as for supply to urban areas. There should be proper arrangements in the village itself to provide them with good seeds and all assistance related to their produces.

Wholesale market within the village

Most of the people living in villages are farmers by profession. They grow food crops, cash crops and foddors in their fields. While they consume the food crops for themselves and the fodder for their cattle, the cash crops the other surplus products are sold in the market to meet their other requirements. There should be provision for wholesale market in the village itself so that the villagers can sell their surplus products there at reasonable rates and get good return. This would save them from the hands of the middle men and bring prosperity

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

Cottage Industries

An ideal village should have well-established small cottage industries so that the artisans and small farmers can utilize their skills and extra time to produce articles necessary for day to day use and earn a handsome profit by selling them in the market

In the Indo-Pak War of 1965, the import wheat under PL480 from US had played a major role and pressure on our foreign policy, which led to the return of the land won and even Lahore. Then Shastri ji gave the slogan 'Jai Jawan Jai Kisan'

At the same time, an agricultural expert named Norman Borlough in the United States quadrupled agricultural production by using chemical fertilisers, pesticides and introducing tractor-to-farm holdings.

For centuries, the farmer, who were using cow-dung and cow urine for fertiliser and Nandi to plough the land, started procuring r costly manure and equipment by taking heavy loan.

Inadvertently, our livestock became the victim of the slaughter houses. And the land was plagued with chemicals thus the land lost its fertility over the years.

The conspiracy of multinational companies succeeded. Now in the name of improved varieties of seeds, farmers were compelled to buy expensive seeds hoping super harvest but it miserably failed and many cotton-growing farmers committed suicide.

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

On one hand, the Ministry of Agriculture has set up regional centres named National Centre for Organic Farming. The Ghaziabad Centre is vigorously propagating the use of West Decomposer, where all the Agriculture Colleges under the Ministry of Agriculture teach the method of use of chemical fertilisers and chemical pesticides making a mockery of the National Centre for Organic Farming

YouTube videos of all agriculture college are full of teaching the use of chemical Fertilisers and pesticides. International mafia of chemical fertilisers and pesticides and so-called improved varieties of seeds is forcing the Indian farmers to depend on them and thus slow down the agriculture production of India

If these mafias were controlled, ten lakh farmers in the country would not have committed suicide

Only solution to ever increasing problems coming from excessive use of chemical fertilisers, chemical pesticides leading to not only turning the agriculture field infertile but also contaminating the ground water causing cancer to a large number of rural population who were known for healthy life style. The only solution to these multiple problems is to set up Kamdhenu Gau Vigyan Kendra (cow science centre) in every village which National Lok Kalyan Party will plan work upon.

National Lok Kalyan Party will take the initiative to set up in every village Kamdhenu Gau Vigyan Kendra (cow science centre) and save the cows left in the jungles and motivate them to cultivate organic farming from cow dung and cow urine and also to increase their income by training the women of the village to make varieties of useful items from cow dung and cow urine..

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

National lok Kalyan Party would to set up the Kamdhenu Gau vigyan Kendra in Punjab to be freed from the curse of poverty every farmer must have cow revert back to organic farming like ancient time then only india farmers will prosper and only Punjab farmers prosper Punjab village will prosper and then whole Indai will prosper.

It is noted with the concern that high authorities in India are advocating Smart Cities instead of Smart Villages citing the example of USA where the farmers population has come down to 2% . India had 80% population in villages in 1947, which has come down to 60% according to 2011 Census and it is expected that the rural population must have come down to 35% to 40% by 2021. It is further advocated by the high authorities that in order to get cheap labour to build smart cities, the rural population must migrate to cities. They forget that these landless labourers live in hell-like slums where young children contact various diseases.

One must work to create livelihood in their own village so that reverse migration may be triggered

Healthcare Centre's and hospitals

Besides food, the other most important aspect of human life is health. An ideal village should have proper facilities taking care of the health of the villagers as well as of their cattle and poultry. There should be one-two healthcare centres depending upon the population of the village. A small hospital also adds to the quality of such a village. Besides health centres for the villagers, veterinary dispensaries should also be there to take care of their live-stock.

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

Educational facilities An ideal village should have proper arrangements of education for the children. There should be Primary schools and High schools so that the little children need not go out of the village for education. Primary education should be free and compulsory for every child up to a certain age. There should also be soft skills training centres and preferably an adult education centre for the elders who want to get education. In addition to the above, some other facilities like a post-office, college, playground for children and a meeting place for elders should also be part of an ideal village.

Conclusion In a nutshell, an ideal village should have all possible provisions and basic intra-structures for the all round development of the people living there. The life in such a village would be such as would never lure a person to leave his home and dwell in an urban area.

B. Adrash Gram Yojna

National Lok Kalyan Party will set up a dedicated team who would develop executor monitor the objective of Adarsh Yojna

A. PERSONAL DEVELOPMENT :

- Personal Values – inculcating hygienic behavior and practices, reducing risk behavior, alcoholism, smoking, substance misuse, etc.
- Cleanliness -fostering healthy habits including daily exercises and games.
- Cultural Heritage
- Behavior change

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

B. HUMAN DEVELOPMENT

Election Manifesto Punjab State Assembly Elections – 2022

The Punjab region of India was considered to be one of the most fertile regions on Earth. Punjab produces a relatively high proportion of India's food output. The region has been used for extensive wheat farming. In addition, rice, cotton, sugarcane, fruit, and vegetables are also grown.

Punjab is considered to have the best infrastructure. Punjab is currently the 16th largest state of India in population.

A state which led India in 1970's as the pillar of Indian Food basket as of now leads officially Internationally as the "Cancer Belt in India"- what else is more dangerous than each loved one affecting from this and dying in multiples each year — Not only it's about Punjab but the same poison is spreading everywhere in India and Internationally — We would take it up as priority to over come these issues and provide solution and make our Punjab

Unfortunately today the state is faced with the problems which have spread like cancer over last 3 decades and today if not taken drastic steps, would result in desertification of Punjab. In an attempt to "Save Punjab" from being converted into a "desertification state with contaminated life taking hazardous chemicals in its water bodies "we would take the responsibility with a unique tested technology of its kind to bring and implement exclusively in Punjab for "Resuscitation of Native Ecology in Soil, water and Air" as part of our "Saada Khirda Punjab" Campaign!

Election Manifesto Punjab State Assembly Elections – 2022

As the first step to introduce Organic farming and to do away with the use of Chemical Fertilizers and Pesticides, National Lok Kalyan Party will launch awareness training and production of Vermicompost together with Multi-layer farming technique

Production of Vermicompost with Multi-layer Fruits and Vegetables

Farming: National Lok Kalyan Party proposes to sponsor youth who chose to remain in their village to set up Vermicompost production Units in their village.

Production of Vermicompost with Multi-layer Fruits and Vegetables

Farming: proposes to sponsor youth who chose to remain in their village to set up Vermicomposting production Units in their village. It is proposed to sponsor 1(One) youth each from 23 Districts of Punjab plus one from Chandigarh, making it a total of 24. National Lok Kalyan Party will invite one unemployed youth or farmer from each District who has the required land to set up the Vermicomposting Unit and Multi-layer farm to attend the Training Programme under the famous Multi-layer Farming Expert. Training and Procurement of Earth Worms.

will also be sponsored In case the youth or farmer who has attended this training programme and wants to setup and implement the same back in his land in his native village for that too 100% sponsorship, financial assistance and assistance in setting .

it up will be provided by the National Lok Kalyan Party. Thus, it will create an additional source of income for the farmer, generate more employment for youth and the whole village and then districts can benefit by adopting these. A solution to address the problems of additional income generation for farmer, unemployment of youth, cancer & water contamination due to Chemical Fertilizers and Pesticides usage can be mitigated and eradicated in the long run. 38

Election Manifesto Punjab State Assembly Elections – 2022

Promotion of Sports : Making Our Punjab Fit Again:-

1. Punjab excelled in Sports & Adventure. Milkha Singh became the household name in Athletics. Srimati Kamaljeet Singh Sandhu became the first Indian Woman to win Asian Games Gold Medal in Athletics in 1970. There are several 'First in India' from Punjab. Most of the Mt Everest Expeditions were led by the Army Officers from Punjab. However, due to decay in Sports & Youth Affairs and influx of drugs from across the border, Punjab lost its past glory.

Our Party will set up:

1. **Sports Academies** in all major cities known for giving to the country world class sports persons like **Sardar Jarnail Singh Football Academy** in Mahipalpur in memory of the legendary Football Captain who led Indian Football team to several International Championships
2. **Sardar Balbir Singh Hockey Academy** at Sansarpur in memory of Golden Hat-trick Olympic Gold Medal Winner of 1948, 1952 and 1956 Olympic Games.
3. Similarly, we will set up **Smt. Kamaljeet Singh Sandhu Athletic Academy** for women in Patiala
4. There are several other major cities where the forgotten heroes will be honored by setting up Sports Academies in their names.

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

5. In order to tap the rural talent from the remote villages to feed these Sports Academies, our Party will set up Sports Clubs in every village and city to promote Sports & youth activities by providing them the best facilities to excel in their talent, be it sports or in other adventure activities.

6. **Shourya Kala Academy (Shastar Vidya)** – Punjab is known as the land of warriors, expert in various weapons be it sword, spear, bows & arrows, or mere stick. Shastar Vidya is the integration part of training of youth of Punjab which has lost its glory over the years.

7. Our Party will patronize Rural Sports Festivals like Killa Raipur Sports Festival to attract rural talent.

8. Our Party will set up **Shourya Kala Mahavidyalaya** and open its wings in every district Headquarter as **Shourya Kala Academy** to train our boys and girls in Shastar Vidya.

9. This will keep the youth away from drugs leaving their homeland & going abroad and a bright future for the complete family & the state

Senior Citizens : Their Care:-

Our Responsibility National Lok Kalyan Party is committed to the welfare of senior citizens, especially their security and health care. We will take measures to deal with the issues related to the senior citizens in a focused manner.

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

National Lok Kalyan Party will:

Provide financial support,

2. Setting up Super Specialty multi-disciplinary Hospitals attached to the Gurujan Niwas
3. Invest in setting up and improving old-age homes.
4. Harness their experience for the benefit of the State. Devise schemes and programs to engage them in running Gurukul and Gurujan Niwas.

The rich experience of senior citizens will be utilized as volunteers / part time workers in various development programs of the government, in urban and rural areas. This will not only help in utilizing their time, but also it would be an effective utilization of their experience and may add an additional source of income for them. Specially Aabled The welfare and rehabilitation of disabled people is integral to our vision of a caring society and that of a responsive government. Our **National Lok Kalyan Party** commits itself to:

1. Enact the 'Rights of the Persons with Disabilities Bill' (RPWD).
2. Use technology to deliver low cost quality education to specially abled students' in-home' - through E-learning.

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

1. Identify each and every special needs person across the State - establishing a web based disability registration system to issue universal ID for all applicable government benefits (healthcare, transportation, jobs, education etc.).
2. Ensure disabled friendly access to public facilities, public buildings and transport.
3. Ensure maximum economic independence of the disabled by creating more income generation models for them.
4. Support and aid voluntary organizations working for the care of the disabled.
5. Provide a higher tax relief for the family member taking care of the disabled.
6. Support and aid voluntary organizations working for the care of the disabled.
7. Provide a higher tax relief for the family member taking care of the disabled.

VEERANGANAYE (War Widows and widows of Para Military Forces, Police and victims of terrorism) – Our Party is committed to look after the welfare of the Veeranganaye whose husband sacrificed life at the altar of motherland. Our Party will ensure proper medical care, education and rehabilitation of the children

War Heroes – It is proposed to offer farm houses at concessional rates to the Officers of three Services and also from the Para Military Forces to settle in the border areas with the twin purpose to encourage organic farming under their supervision and also to serve as vigilante at the border to stop smuggling and infiltration across the borders.

WATER CRISIS

Punjab is facing the critical problem of water contamination mixed with toxic cancer particles mixed due to excessive use of chemical fertilizers & pesticide also the underground water level is going down drastically every year. To over come this crisis water harvesting across the state will be promoted & such structures would be implemented

Secondly the existing water bodies such as wells etc. through & innovative technique will be treated. This will more cheaper more effective & innovative then conventional sewage treatment or other such existing mechanisms . Also it would lead to increase in the water levels of existing underground water levels & “desertification” which is a serious problem Punjab is facing & will be addressed.

Election Manifesto Punjab State Assembly Elections – 2022

PILOT USECASE - MUKTSAR WATER AND SOIL CRISIS

Muktsar district has no river and is covered extensively by the canal network of Sirhind feeder canal to meet the irrigation and drinking water needs of the people. There are some drains which flow during heavy rains and serve as natural drainage

Muktsar is one of the worst-affected districts with cancer and hepatitis

- There are 234 villages in the district each having one or more ponds, in which local village wastewater gets accumulated and kept untreated. These ponds have become a source of vector borne disease and heaven for mosquitos colonies. Untreated pond water seeps into the underground aquifer and make the underground water also contaminated. And over a period of time , seepage also gets stopped and water starts to decay further.
- The district has four blocks - Sri Muktsar Sahib, Malout, Lambi and Kot Bhai at Gidderbaha. The shallow ground water of the district is alkaline in nature and is moderate to highly saline. The three-fourth ground water of the district area is unsuitable for drinking as well as for domestic purposes and has salinity and sodium hazards for the irrigation purpose also. Other major reason of disease and contamination - Reportedly, farmers in this region use 15 different pesticide sprays and the unregulated and excessive use of chemical fertilizers and pesticides have resulted in farmers and their families living in a cesspool of toxicity.

Election Manifesto Punjab State Assembly Elections – 2022

Source:-<https://www.businessinsider.in/the-shocking-tale-of-indias-cancertrain/articleshow/52690219.cms>

Water, Soil and Air are the main 3 sources of life for all living beings (Human/Animal/Plants) to survive and to be healthy. If we drink/store contaminated water and have unhealthy irrigation practices, then it would result in one or the other disease in due course of time

? WHAT IS THE SOLUTION ??

ANSWER = RESUSICATION OF NATIVE AQUA ECOLOGY

The project is purely focused upon reinstating Water, the natural aquatic ecosystem and making the Water quality adequate to support life. Following are the key pointers on the line of actions:

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

1- SCOPE OF WORK Ecological Resuscitation process through Proprietary© Technology

conditions shall be achieved - :

- a) Entire foul smell in the vicinity due to anaerobic digestion will vanish.
- b) The Water viscosity shall reduce to give it a natural flowing status.
- c) The entire mosquito colonies shall be abolished, finishing the threat of vector borne diseases in the vicinity.
- d) Natural photosynthesis shall start in Water and emission of Oxygen in air shall start making the air quality better.
- e) All the particulate matter shall get attracted to the Water body and will start to get consumed in aqua-ecology, ensuring air pollution mitigation.
- f) Ecological dredging shall start that would eventually ensure the increase in Water holding capacity minimizing the threat of flooding

The same status of the Water body shall be maintained and kept rejuvenated till the end of the contract period.

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

IMPORTANT ASPECTS & COMMITMENTS OF THE PROJECT

Following conditions will remain valid for the entire process of Ecological Rejuvenation of wastewater (Pond/Drain):

- I. The entire process will be done ecologically using Proprietary© Technology only and no other technology will be used in the Rejuvenation work.
- II. No water shall be wasted in decantation/dewatering & refilling , and the Rejuvenation will be conducted fully in-situ condition.
- III. Ecological desludging/desilting work shall be done without any wet excavation. No DeSilting / DeSludging required.
- IV. The process of Rejuvenation has to be 100% ecological and in harmony with the natural biodiversity of the said agro-climatic zone. NO CHEMICAL/BIO-NUTRIENTS/BIO-ENZYMES required.
- V. No permanent civil construction is required at the project site.

WATER QUALITY MEASURE

Following Water problems remains resolved throughout the contract period:

- a) Water will be completely free from bad odour.
- b) There will be no emergence of aquatic insects, algae and weeds
- c) There will be no mosquito population in the Water.
- d) There will be no itching at the touch of water.
- e) Water will be light and will come to its natural colour

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

PROGRESS AND BENEFITS OF THE REJUVENATION PROJECT:-

The project progress can be monitored by the administration according to the following benchmarks (based on the level of pollution and contamination in the water body, or according to the soil and water characteristics) and get following benefits:

- The embankment area will be completely odor-free.
- Any water weeds, hyacinth or algae on the aquatic surface will dry up and die its own natural death.
- The bottom of the water body will begin to get free from smelly & decaying sludge.
- Water can be used for irrigation and animal husbandry purpose.
- Aquaculture(fisheries) in our treated ponds is possible.
- Water Stress De-escalation / Underground Water Recharge
- Low Input, High Yield & Multiplied income from farming (Antibiotic Free Animal Husbandry
- Disease free farms (Chemical & Biological intervention free farming)
- Air Pollution Mitigation
- Solving Water & Food Scarcity
- Water Overflow / Flood / Draught Mitigation

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

Non Resident Indians (NRI) Assistance Cell:-

This cell members will actively coordinate with NRI's in order to be an interface between NRI's and their motherland. What all developments at macro level plus at the particular state of the NRI, the cell members will keep on updating the NRIs about socio-economic-political developments taking place in India.

Further NRIs who wish to setup or invest back in the country and needs support and guidance about the sector of his preference and the government or private projects available then this cell's local team will identify such opportunity for them and provide consultancy. Similarly, if the NRI wishes to undertake social work or donate or wish to do some work in his native place or state, like adoption of school, charitable hospital, assist Women Self Help Group in marketing their products, members of this Cell will take up the responsibility to execute the projects on behalf of the NRIs

Women effected through NRI marriages staying abroad can approach this cell and to locally in their residency foreign country to assistance for there facing would be provided in Punjab too families of such

NRI Brides & Bridegrooms – The growing cases of abandoning newly married girls by their NRI husbands have to be dealt firmly. On receipt of official complaints, each case will be taken up with the Ministry of External Affairs to cancel the passport and visa and ensure repatriation of the absconding bridge to India.

Block Level Free Legal Aid Cells - It is proposed to set up Block level Free Legal Aid Cell by enrolling Law Graduates preferably girls by helping them to get them registered with the District Bar Association and set up Free Legal Aid Cell to provide legal support to the cases of poor farmers, family disputes, divorce cases of NRI bridegrooms, as well as victims of social evils.

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

Further, if the NRIs wish to provide their family members in India health care facilities, security arrangements, education for the children of their relatives, obtaining Visa and settle some local disputes, the members of this Cell will provide timely assistance to its NRI members and their families in India. Also if the NRI wishes to visit his native place in India for medical treatment for self or for the family members needs local level co-ordination and assistance, the Members of this Cell will provide all assistance.

This Cell will be a two-way coordination platform , if someone from the same native place is looking for some assistance abroad, the Members of this Cell will seek NRI members for assistance in the place where he is settled.

Thus NRI Cell will be a nodal central point for all types of professional and personal assistance to the NRIs residing abroad and his county's - his state - his native place - or his family members back here or assistance he wants locally along with any other specific assistance is needed or coordination needed even with government & administrative departments.

In order to register and share your need , you can log on to the website NRI assistance , register yourself and then submit an application for the assistance you need and then our counselling team will get back to you on the same .A dedicated team and a helpline number too to seek assistance Internationally is placed for the same.

NATIONAL LOK KALYAN PARTY*

Election Manifesto Punjab State Assembly Elections – 2022

DRUG DE-ADDICTION & REHABILITATION Campaign:-

In order to curb the damages caused to the family members of loosing there loved ones and seeing them suffer, we would be undertaking the following measures to keep a check on this menace and provide support to those who are suffering from the same:

Setup a dedicated team for online & a helpline number for counselling, awareness and assistance for general public/NRIs who through these mediums can connect with us and our counsellors can consult them on the

- Specific Patient records and problems can be shared so that on case to case basis on prior medical history specific medical treatment from medical professionals can be provided.
- Setup dedicated charitable & affordable Drug Rehabilitation centres where patients can be admitted for care & treatment with Day Care and residential facilities across India (Punjab being the Priority Sate).
- Organise Drug de addiction & Rehabilitation Camps or conduct programs across the Country with an aim to reach adolescents, youth or general public for creating awareness about the harmful effects of Drug Abuse through Outreach & Drop in Centres & encourage the drug dependent persons to seek treatment
- To develop & run dedicated Media Campaigns to make the general public aware of the key critical issues of drug abuse.
- Health department will setup with multiple NGO's (Government Recognised) and would engage volunteers dedicated to the society for the same.

Election Manifesto Punjab State Assembly Elections – 2022

In order to register and share your need , you can log on to the website , register yourself and then submit an application for the assistance you need and then our counselling team will get back to you on the same .A dedicated team and a helpline number too to seek assistance Internationally is placed for the same.

“Agro Waste To Electricity”- Initiative A Solution to Purali Burning & its Pollution:-

- India produces more than 500 million tonnes of agricultural wastes annually in which cereal crop residues accounts for about 70% of the total crop residue. Majority of the crop residues is used as fodder and fuel for domestic and industrial purposes but still there is surplus of 140 million tones and in which 92 million tones is burnt each year. As per the estimate, Punjab alone produces about 23 Million tonnes of Paddy stubble and 17 million tonnes of wheat straw every year. Of this, 80% of the rice and wheat stubble generated in Punjab are burnt in farms which alarms the rate of the air pollution in our country and also the percentage of stubble burning in Punjab has increased this year when compared to last year.
- Every year from the month of October to January farmers in the northern parts like Punjab, Haryana, Uttar Pradesh and Rajasthan which burn agricultural waste jacking the air pollution levels in the national capital and the neighbouring cities- homes for over 25 million people. During November with the onset of cooler weather the smoke, fog, dust, and industrial pollution form a thick haze which serves to be a major problem in several cities like Lahore, New Delhi, Lucknow and Kanpur.

Election Manifesto Punjab State Assembly Elections – 2022

- The burning of crop residues generates numerous environmental problems like increasing the emission of green house gases which leads to the global warming and significant rise in the air pollution, increase level of particulate matter (PM) which leads to climate change by releasing fine black and brown carbons into the atmosphere and smog which causes health hazards, loss of biodiversity of agricultural lands and deterioration of soil fertility. The PM emitted due to burning of stubbles in New Delhi is 20 times that from all the other sources of emission. Heat produced by burning of crop residues increases the temperature of the soil which leads to the depletion of the bacteria and fungal population in the soil
- The rate of energy consumption continues to grow every day and the demand has also risen. A recently released survey suggests that 87% of the country's population has access to electricity and still 13% of Indian Households don't have any access to any electricity. According to a study, as a result of electrification and the uptake of green hydrogen the global power consumption will almost double by 2050 so there will be high demand for energy
- Thus, both self-sufficiency in electricity and proper management of agriculture waste can be attained by this project proposal. As per the research, 200 kg of rice husk can produce 40 kw (40 Unit) of electricity per hour which can prevent about 200 tonnes of CO2 emission annually compared to CO2 emissions from diesel-generated electricity. If the excess heat produced is used for drying nearly 600 tonnes of CO2 can be eliminated annually. This proposal will minimise the volume of agricultural residues by turning them into green electricity and heat, essentially by killing two birds with one stone.

- This project consists of combined heat and power generation system that can transform heat into electricity. It consists of a cyclone biomass furnace where the stubbles are made into pellets and fed into the combustion chamber along with ambient air where it is burnt by using high-velocity cyclone for complete combustion. The ashes that are produced falls to the bottom of the chamber due to gravity and are disposed by screw conveyer whereas the hot air/gas passes through upper chamber for the production of electricity. Heat is transferred to the working fluid at constant pressure, increasing the temperature and pressure of the working fluid until it reaches the boiling point. The vapour then undergoes superheating, then adiabatic expansion causing decrease in temperature and pressure and thus generating power. The vapour is condensed to its original liquid state in a condenser to allow the process to be repeated.
- This continuous energy can be produced by this method. The benefits of this proposal are stated below:
 - Provides renewable heat and electricity from the agricultural wastes.
 - Eliminates agricultural waste and hazardous disposal practices which complies with more stringent environment.
 - Burnt ashes from the crop residues serves to be good fertilisers which can enhance the soil fertility.
 - Prevents CO₂ emission into the atmosphere.
 - Implementation of this project is faster when compared to other methods.
 - High flexibility and adoption to almost any fluctuations in the heat source
 - Efficient use of low-temperature heat.
 - Lower capital and operating cost.

- This proposal encourages the use of crop residue in the energy sector as a raw material. The solutions involving long-haul transportation, expensive technology or high capital investment are likely to be succeeded. The fertilisers obtained feed the nutrients in the crop residues back into the same crop land have given better performance and the yield percentage is also enhanced. This mechanism can considerably reduce the crop residues burning and also help in the production of energy through agriculture waste residues. Therefore, agricultural waste can be utilised in much needed form of electricity in rural areas. We have the expert Management Team & Technocrats who have successfully implemented these projects Internationally and now in India , specially this Problem of Purali (Agro Waste) Burning which is a major issue would be taken care.
- This will create additional employment income generation for the community and for farmers suffering from the problem of pollution & crop residue waste.

Talent Registration Centres & Skill Développement Centres

The objective is to develop skills , identify the talent , bring them from informal to formal training system and guide them to excel professionally in a desired field. This will create an independent ecosystem wherein young talent at grassroots level would get an access to a formal well guided action plan to pursue there dreams and achieve them under proper professional mentorship with a blue print in place starting at a village level itself without relocating or leaving there family back in order to migrate or relocate to pursue there dreams.

Further those families or there family members who are suffering from the menace of drugs addiction can be brought in this skill development centres wherein they will get a positive atmosphere and would see how others of same age group are dedicatedly performing and working hard to achieve there goals .So, an anti-depressant and inspirational outlook would develop in the drug affected victim and would see a way to become someone they idola.

Also as trainers would be involved to train in these skill development centres at grassroots level an employment at local level will be created too.

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

Talent Registration Centre (TRC)

In this anyone who has an interest in a particular sports , art & culture or wants to inculcate a skill can register themselves or there family members or friends or well wisher can nominate anyone on there own behalf .This will be setup at each village level & headquarter at each district level

Skill Development centers (SDC)

- .These centres will be opened in government schools after school hours or at local establishments in Panchayats to undertake
- training modules for the candidates who have been enrolled in our Training Registration Centres.
- This will be setup at each village level & headquarter at each district level
- Sports would includes Gatka (Sikh Martial Arts) , adventure sports .like rock climbing along with traditional indoor & outdoor games like athletics , cricket, football, wrestling, table-tennis, badminton etc.
- .Arts & Culture includes singing , dancing , acting , music composition , painting , poetry , writers , sculptures, story writing etc. The key objective will be those who want to make there careers in entertainment industry and not miss guided, lured for false commitments in wrong doing and sell there land parcels in order to launch themselves or leave there families and move to Mumbai or other places for a break.

NATIONAL LOK KALYAN PARTY*

To be constituted*

Election Manifesto Punjab State Assembly Elections – 2022

- Spreading computer literacy like use of computers , basics like website design ,Internet cafe services , MS office complete etc. so that one gets the skill to use the computer & IT services and also provide these services to others. Mobile & TV repair , learning driving, learning skills so that as security professionals can be employed etc would be there too. Teaching the teachers in imparting netter teaching skills and methodology and using interactive means to engage students would also be key area of focus including special focus on imparting written ,oral & communication skills in Punjabi Language & teachings of Sikhism & Sikhi.
- Training too would be provided so that not only it leads to a better mental & physical Wellness in a person but also one can be self employed as trainer and can train others as well or join some organisation for the same or open his own centre and make his livelihood
- Naturopathy Treatments would include therapies like Massage Therapy, Hydro Therapy, Chromo Therapy, Mud Therapy, Magneto Therapy, Diet Therapy, Acupuncture, Acupressure etc.
- Potli, Shirovasti, Shirodhara , Nasyam , Udhwaratnam, Kativasti,
- Januvasti , Basti etc.
- So focus will be there to develop the skills to become Yoga Trainer , Ayurveda Panchakarma Therapist, Naturopathy Therapist, Beauty & Wellness Therapist etc.

Further basic skills like stitching & clothing , making pickles, pappad, using cow dung & other Agro products etc. at local level too would be stressed upon.

So whether it's a growing child , or a women or the gents all can be part of this ecosystem and independent can develop there own means to earn a living by inheriting skills .

Over a period of time new courses and methodologies to impart training would be implemented into the system. This will create a complete talent pool which then from these Skill development centres can further grow and move in right direction without being mislead or misguided by anyone.
